

Goodwill Is *Green!*

Goodwill Industries has been **GREEN** since the day we opened our doors in 1959. We are one of the world's largest recyclers. Our recycling process is unique:

- **Goodwill** accepts donations of clothing, household items, and furniture, keeping these items from going to our landfills.
- **The donated articles** are then sold in Goodwill stores, giving new life to the donations and giving someone else the opportunity to get the most out of the recycled items.
- **Goodwill** uses the money earned from the sale of the donations to pay for vocational programs and services for persons with disabilities and disadvantaging conditions in our own neighborhoods.

With a helping hand from Goodwill, special people are finding good jobs right here in Central Florida, becoming self-sufficient taxpayers who contribute to our community's economy.

So, think **GREEN!** Bring your unwanted items to Goodwill – it's a great way to recycle and help your environment, and it changes lives, too!
